

Stanwood-Camano Google Docs Permission Form

Student Name: _____

Dear Parent or Guardian:

With your permission, your child will be able to access and use his/her Stanwood-Camano School District Google Docs account . *This account is not the same as a Google Docs account that anyone can sign up for through Google.* It is administrated by the Stanwood-Camano School District. Access to your child's Google Docs account is achieved by first going to the webpage for his or her school and selecting "Google Docs for Students." In class, we will use this platform to create documents, presentations, and research papers.

Students using Google Docs will be able to collaborate with other classmates, as well as work on their assignments anywhere there is internet access. Collaborative sharing of documents is restricted to Google Docs users within the Stanwood-Camano School District.

Please contact Kirsten Smistad regarding any questions concerning Google Docs and Stanwood Elementary students. ksmistad@stanwood.wednet.edu

Permission

I give permission for my child to use his/her Stanwood-Camano Google Docs account for school related work. My child and I understand school and district rules apply when using Google Docs.
